Main unit

Door

Receiver

Power switch   Door open/close button

Bottle stand

Open the door and slot the bottle into the recess in the centre of the stand.

How to insert batteries

AA alkaline batteries × 3

<Base>

Power switch

MADE IN CHINA

OFF

ON

Battery cover

(1) Remove the battery cover on the base of the main unit by loosening the screw with a Phillips screwdriver.

(2) Insert three AA alkaline batteries with the positive and negative terminals facing the right way.

(3) Reattach the battery cover and tighten the screw with the Phillips screwdriver in the opposite direction to removal to firmly shut the cover.

*Make sure to remove the batteries when not using the product for long periods of time.

<Guidelines for replacing batteries>

Battery life

·**Approx. 270 minutes**
 (estimated battery life when LEDs are flashing)

·**Approx. 120 minutes**
 (estimated battery life when all LEDs areturned on and the LED colour is white)

Replace all the batteries with new ones when the sound gets quieter or the LED lights start to dim.
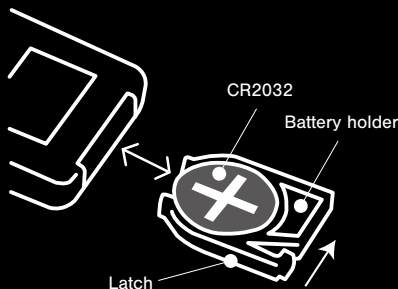

*Battery life varies depending on the operating environment, such as mode and LED colour.

How to replace the remote control battery

If the remote control signal gets weaker or it fails to respond when a buttons is pressed, replace the internal battery in accordance with the figure below.

CR2032
Battery holder

Latch

(1) Release the battery holder at the bottom edge of the remote control by squeezing the latch on the battery holder in the direction of the arrow, then slide the battery holder out.
(2) Remove the old battery from the battery holder and replace with the new battery, making sure the positive and negative sides are facing the right way.
(3) Push the battery holder back into the remote control until the latch fully clicks into place.

OPEN / CLOSE

◀▶

Opens and closes the door

(1) Turn on the power switch on the base of the main unit.
(2) Press the door open/close button on the main unit, or press the door open/close button on the remote control while pointing the transmitter on the remote control at the receiver on the main unit.
If the door is closed it will open, and if it is open it will close.
If the power switch is turned off when the door is open, the door will close automatically the next time the power switch is turned on.

LED MODE

M

Changes the LED mode

When the power is turned on and the door is opened for the first time, all LEDs light up.
The LED light up mode changes each time the LED mode button is pressed. There are five different modes.

| MODE1 | All LEDs light up. → | MODE2 | LEDs light up slowly in sequence. |

→ MODE3 LEDs light up randomly. → MODE4 All LEDs flash quickly.

→ MODE5 All LEDs flash slowly. → All LEDs light up again.

Closing the door resets the mode. The next time the door is opened, all LEDs light up.

LED COLOR

C

Changes the LED colour

When the power is turned on and the door is opened for the first time, the LEDs light up in the colour that matches the colour of the main unit.
The colour changes each time the LED colour button is pressed. There are six different colours.
Closing the door resets the lighting. The next time the door is opened, the colour is set to the first colour of each egg (gold, pink, or blue).

Vintage 2008 Egg GOLD	Gold → Red → Green → Blue → Pink → White → Six colours
Vintage 2008 Egg PINK	Pink → Green → Blue → White → Gold → Red → Six colours
Vintage 2008 Egg BLUE	Blue → Pink → White → Gold → Red → Green → Six colours

---

VOLUME

▲ ▼

Adjusts the volume

The volume can be adjusted to four levels: low, medium, high, and very high. When the power is turned on and the product is used for the first time, the volume is set to high.
Closing the door resets the volume. The next time the door is opened, the volume is set to high.
